NH3 safety – personal use emergency eye wash bottles

Although we hope you will not have the need to use one – we have done our best to ensure that these emergency eye wash bottles will provide you with a critical initial emergency source of water until you can get to another source.

The bottle's oval design allows it to fit comfortably into a shirt or coverall pocket, and locking cap prevents leaks. Bottles are transparent so you can easily ensure water level is full and are made of soft poly to ensure maximum water is extracted upon squeezing. Specialized cap can be easily opened with one hand, and rounded tip spout ensures you can safely aim the water into your eyes where it's needed.

Cost per bottle:

OABA Member price: \$1.12 each plus HST **per bottle**

Non-Member price: \$2.24 each plus HST **per bottle**

These bottles can be ordered by contacting the OABA office and you can arrange to pick them up at the OABA office or at any [upcoming OABA event](#) (if you tell us in advance). We can also mail or Purolator as required, however **cost of postage or courier is extra.**

To order contact the Ontario Agri Business Association by sending an e-mail to info@oaba.on.ca or phoning 519-822-3004.
