

## **WSIB double rebate program for smaller businesses and Updates on WSIB website**

Wanted to send a quick note that you can amend/share with members to remind them about our double rebate program for smaller businesses as well as some updates on our website!

### **Double rebates for smaller businesses**

A reminder that WSIB's Health and Safety Excellence program connects Ontario businesses with approved providers in their industry or community who'll help them implement an action plan based on a choice of 36 available health and safety topics. For each topic completed, businesses can earn a rebate on their WSIB premiums.

Right now, **smaller businesses (1-99 employees) can get double the rebate in 2023 as well as \$1,000 toward developing action plans!** To note – larger businesses are still eligible for our regular rebates, so please encourage them to check out the program too.

Businesses can learn more about the program, rebates, and connect with us at our newly designed website: [[wsib.ca/healthandsafety](https://wsib.ca/healthandsafety)]WSIB health and safety.

### **Enhancements to our website**

Our web pages have been streamlined to the most useful information making it easier for businesses to learn about the program. There are also new features including:

- An video testimonial from [Brian's Little Electric](#)
- A button to [request connection](#) to a WSIB health and safety consultant
- A [provider finder tool](#)
- An updated [rebate estimator](#)
- A Health and Safety Excellence program on-demand information video – coming soon

Sincerely,  
Vanessa
