## **2022 Agri Business Safety Network**

OABA's ongoing commitment to provide members with efficient and effective health and safety programming continues, and we are pleased to advise the membership that our 10th year (2021) of hosting an Agri Business Safety Network was a success with 39 company participants.

Based on very positive member feedback, OABA will continue to deliver the Agri Business Safety Network in 2022. The primary objective of this program is to provide participants with information, tools and an opportunity to share through networking relationships that will support the Association's goal for the elimination of workplace injuries and accidents, and enhance your Health & Safety program.

The program consists of (3) single-day networking meetings throughout the year, hosted at the Victoria Park East Golf Club (on Victoria Road) in Guelph.
