

# Ruminant Feed Industry Day

**Wednesday November 2, 2022**

*An event organized for Ontario's feed industry  
jointly hosted by OABA and OMAFRA*

**In-person** at Grand River Raceway in Elora  
OR

**Online** via Zoom (morning program only)

## **About this event:**

Ruminant Feed Industry Day returns to in-person on Wednesday November 2, 2022 in Elora with a virtual option for those who require it. This is a 1-day event, and we hope to return to having an in-person Eastern Ontario day in 2023. Thanks to our sponsors' support, we are pleased to offer 30% off the regular registration price for early registrations (to October 26). The in-person program includes current topics to address issues specifically for feed industry professionals. Lunch will be provided and will include afternoon modules at the Ontario Research Centres nearby. The virtual option is for the morning program only, not the afternoon modules. Event connection details will be provided upon registration.

## **Registration:**

Registration for either option (in-person or virtual attendance) is available [via Eventbrite](#).

The agenda/program can also be viewed on the Eventbrite website.
