

## **OABA Webinar – February 25, 2019**

The next presentation in OABA's webinar series is "Considerations for DON Management in Grains - Handling, Sampling and Storage". OABA is pleased to have Dr. Erin Bowers from Iowa State University. Dr. Bowers received her doctoral degree in toxicology and is currently an associate scientist and adjunct assistant professor in the Department of Agricultural and Biosystems Engineering at Iowa State. She teaches undergraduate and graduate courses on animal feed safety and conducts research related to management of mycotoxins in bulk grains and feed.

Dr. Bowers' presentation will cover how to develop a sampling program, which is based on a presentation she made at GEAPS Exchange 2018. The presentation will also look into other opportunities for DON management during handling and storage.

The webinar is taking place on Monday, February 25th at 12:00 (noon). There is no fee for the webinar, however we ask you register in advance by emailing Ron Campbell [ron@oaba.on.ca](mailto:ron@oaba.on.ca) . Once you are registered you will receive the link to access this webinar.
